AMERICAN TANK INC.

an environmental solution

tank removal • soil testing & remediation

January 15, 1993

Arrow Gear Co.
Mr. Dave Greco
2301 Curtiss
Downers Grove, IL 60515

Dear Mr. Greco:

American Tank, Inc. is a full service environmental contractor that specializes in testing, consulting and contracting services to help business, industry and government address environmental issues. Our main concern is to lead a property owner or a buyer through their specific environmental situation in the most efficient and economically feasible way.

Our project experience in Environmental Site Assessments, Underground Storage Tank (UST) upgrades to meet current and future guidelines, UST removals and remediation of contaminated soils is unsurpassed by companies within our field. American Tank, Inc. is also actively involved in emerging bio-remedial technologies that have been approved by the Illinois Environmental Protection Agency.

As a part of our services, we offer complimentary preliminary site surveys. This process simply involves evaluating the location and size of the USTs, determination of the type and quantity of product that is stored in them and locating the distribution lines. This process is of no charge and will take approximately five minutes per UST.

Should you be interested in a site survey or receiving more detailed information about American Tank, Inc., please contact our office at (312) 808-1444 to speak with one of our representatives. From here we may begin a client relationship aimed at gaining an understanding of your situation and present an economical solution.

Sincerely,

AMERICAN TANK INC.

FREE SITE ASSESSMENTS

American Tank offers a free site assessment to determine exactly what is needed to comply with ever changing Illinois Environmental Protection Agency (IEPA) regulations.

PHASE II REPORTING

- Property Transfers
- Soil Investigations
- Property Overview
- Building Inspections

LEAK DETECTION & UPGRADING

- Vapor Detection Systems
- Ground Water Monitoring Wells
- In-tank Monitoring Systems
- Overfill Protection

UNDERGROUND STORAGE TANK REMOVAL

American Tank handles the total aspect of tank removal, from state and local permitting to closure sampling and final documentation.

SOIL TESTING & REMEDIATION

American Tank supplies a state-of-the-art mobile lab vehicle to assist our engineering staff while working in the field.

The mobile lab vehicle gives a more comprehensive look at the soil conditions on site and is cost effective in regards to saving additional laboratory analysis.

AMERICAN TANK INC.
an environmental solution
